

Don't be an Ostrich.

Easter Eggs are yummy. Easter Chicks are cute. The Easter Bunny is... well, actually the Easter Bunny is a bit weird, but hey, whatever tickles your fancy.

But please, don't be an Easter Ostrich.

At the heart of Easter is a story that is too profound, too shocking, too utterly life-changing, too full of hope, for anyone to just bury their head in the sand and ignore it. Spend some time really looking at the facts, and you'll find a God who loves you with a passion - loves you enough to send his Son to give his life for you.

Easter greetings from all the churches in Peebles.
